Testimony from Home!

Baltimone, Sept. 11, 1851.

Messrs. Mortimer & Mowbray: I feel it a duty to make known the benefits I have derived from Dr. Hampton's Tincture. For a length of time I have been subject to great prostration of muscular power, and great debility of the nervous system, accompanied with palpitation and fluttering of the heart. I had such sudden attacks that on one occasion I could searcely get home. I making mention of my case to a friend, he referred me to Joseph K. Stapleton, esq., an old and highly respectable citizen of Baltimore, who had used the Tincture under similar circumstances. I called on Mr. Stapleton, and, after an interview of some minutes, I was fully satisfied of the medical virtues of the Tincture, from the evidence before me, of his own person, who, for some time previous, indicated a failing state of health, but now a hearty, hale appearance, with the activity of youth. I immediately commenced using the Tincture, and, before I took the contents of one bottle, my strength was renewed, and I can walk as brisk and am as active as I was twenty years ago. This Tincture is the grand restorative of the digestive organs, which when destroyed, the whole system is in a state of suffering.

I do assert it is no humbug, but is, in reality, what it is represented to be by Dr. Hampton, the inventor.

PROSPECTUS OF THE COTTON PLANT,

A SOUTHERN JOURNAL, PUBLISHED WEEKLY, TO ADVOCATE DURLE TRADE, MANUFACTURES, AGRICULTURE, AND THE DEVEL-OPMENT OF SOUTHERN RESOURCES, BY C. G. BAYLOR,

WASHINGTON, D. C.

THE importance of such a journal as the above needs no exposition. The material and substantial interests of the South have been too long neglected. The "Corros Plant" is established to promote these interests, keeping entirely aloof from party or party perithe. A complete fargin and domestic correspondence has been arranged. The best talent of the country will contribute to our columns, which will present a medium of general communication, correspondence, and information for the friends of the measure we advocate. The proper steps have been taken in Europe and America to lay the foundation of a direct foreign took at the South, and to introduce our column manufactures into the continental European market. One object of the "Corron Plant" will be, as the organ of direct trade, to stimulate the South to carry out this important measure.

We call upon the Southern merchants generally to send us their business cards, that we may lay them before the country, to enable the friends of Southern commerce, manufactures, &c., to discriminate properly in their desire to premote Southern enterprise.

The importance of Washington City, as a point of location for such a journal, especially in regard to opening foreign correspondence and promoting our foreign relations, is apparent. The opportunity of seeing here, also, members of Congress from every district of the country, presents means of general cooperation not to be found elsewhere.

To the Cotton, Sugar, Rice, and Tobacco Planters, we look confidently for support; and to the friends of "Direct Trade" throughout the South we say, "show your faith by your works."

The regular issue of the "Cotton Plant" will commence
